The Red Badge of Courage-Stephen Crane 2014 Stephen Crane's immortal masterpiece about the nightmare of war was first published in
1895 and brought its young author immediate international fame. Set during the Civil War, it tells of the brutal disillusionment of a young recruit who had dreamed of the thrill and glory of war, only to find himself fleeing the horror of a battlefield. Shame over his cowardice drives him to seek to redeem himself by being wounded—earning what he calls the “red badge of courage.” Praised for its psychological insight and its intense and unprecedented realism in portraying the experience of men under fire, The Red Badge of Courage has been a beloved bestseller for more than a century.

**Radiation** - Amanda E. Lehtinen 2011 Radiation is all around us and naturally present in our environment and has been since before the birth of the planet. Radiation occurs in nature, but it can also be produced artificially, as in medical X-rays, microwaves for cooking and for nuclear energy. Radiation can be either beneficial or harmful, depending on its use and control. Therefore, regulation of certain radioactive sources is necessary so that people are protected from unnecessary or excessive exposures. This book examines the major sources and uses of radiation, the risks from exposure and how we can reduce these risks.

**The Pit and the Pendulum**-Edgar Allan Poe
The Pit and the Pendulum" is a short story written by Edgar Allan Poe and first published in 1842. The story is about the torments endured by a prisoner of the Spanish Inquisition, though Poe skews historical facts. The narrator of the story is deemed guilty for an unnamed crime and put into a completely dark room. He passes out while trying to determine the size of the room. When he wakes up, he realizes there is a large, deep pit in the middle of the room. He loses consciousness again and awakens strapped on his back, unable to move more than his head. He soon realizes there is a large blade-like pendulum hanging above him, slowly getting closer to cutting through his chest. He finds a way to escape but the walls of his prison start to move and close in on him, pushing him closer and closer to falling into the pit. The story is especially effective at inspiring fear in the reader because of its heavy focus on the senses, such as sound, emphasizing its reality, unlike many of Poe's stories which are aided by the supernatural. The traditional elements established in popular horror tales at the time are followed but critical reception has been mixed.

**Great Expectations** - Charles Dickens
2021-04-23 My father's family name being Pirrip, and my Christian name Philip, my infant tongue could make of both names nothing longer or more explicit than Pip. So, I called myself Pip, and came to be called Pip. I give Pirrip as my
father's family name, on the authority of his tombstone and my sister,--Mrs. Joe Gargery, who married the blacksmith. As I never saw my father or my mother, and never saw any likeness of either of them (for their days were long before the days of photographs), my first fancies regarding what they were like were unreasonably derived from their tombstones. The shape of the letters on my father's, gave me an odd idea that he was a square, stout, dark man, with curly black hair. From the character and turn of the inscription, "Also Georgiana Wife of the Above," I drew a childish conclusion that my mother was freckled and sickly. To five little stone lozenges, each about a foot and a half long, which were arranged in a neat row beside their grave, and were sacred to the memory of five little brothers of mine,--who gave up trying to get a living, exceedingly early in that universal struggle,--I am indebted for a belief I religiously entertained that they had all been born on their backs with their hands in their trousers-pockets, and had never taken them out in this state of existence.

The Effects of Using an IPad on the Development of Reading Comprehension Skills for a Student with Severe to Profound Developmental Disabilities - Jill Vehrenkamp 2012

The purpose of this case study was to examine the effects of using an interactive story and questions on an iPad to improve reading comprehension versus a book and paper and pencil assessment with a 9th grade student with severe to profound developmental disabilities. The author sought to determine whether or not using the iPad increased reading comprehension skills. The student received instruction using both methods. To determine the effectiveness of each, the percentage of questions answered correctly were compared between the two methods. Both methods included reading passages at a first grade reading level. Progress was monitored by observation and data collection of reading comprehension questions and grade level advances or regression. The study showed that using an iPad for reading instruction did increase comprehension better than the book format.

**The Oval Portrait**-Edgar Allan Poe 2021-09-06

Perhaps fitting for a horror short story, the devil is in the details in Poe’s "The Oval Portrait" (1842). A benighted traveller finds shelter in an abandoned mansion in the Apennine Mountains of Italy. Inside he gets absorbed by a stunning painting and decides to delve into its origins with the help from a book he finds on a pillow. The story revolves around the complex and often tragic relationship between life and art. As per usual Poe can’t help himself to play with layers, and most of the story is told as an embedded narrative. The intense emotional and psychological depths of the narrator’s infatuation with the portrait and the enticing volume that helps to shed a light on the painting make this short story another fascinating and haunting and Poesque tale which succinctly glorifies the immortality of art. Edgar Allan Poe (1809-1849) was an American poet, author, and literary critic. Most famous for his poetry, short stories, and tales of the supernatural, mysterious, and macabre, he is also regarded as the inventor of the detective genre and a contributor to the emergence of science fiction, dark romanticism, and weird fiction. His most famous works include "The Raven" (1945), "The Black Cat" (1943), and "The Gold-Bug" (1943).
